CLIP-INS EXTENSIONS

KERATIN TIP EXTENSIONS

Keratin tip extensions are a long-lasting option, suits for clients who love water sports, and they require a professional stylist to apply.

TAPE EXTENSIONS

Tape-in extensions, on the other hand, are more discreet and can last for several weeks. They are also great for those with fine or thin hair as they lay flat against the scalp. However, they require professional application and removal.

WEFT EXTENSIONS

Weft extensions are another option, and they are great for those with thick hair as they can support the weight of the extensions. However, they can be uncomfortable to wear and can cause damage to the natural hair if not installed properly.

CLIP-INS EXTENSIONS

Clip-in extensions are a popular option as they are easy to apply and remove, making them ideal for those who want to switch up their look without committing to a long-term change. However, they are not suitable for those with fine or thin hair as they can be bulky & visible.

I spontaneously decided to get my tape in extensions done at Hair Shop and I was surprised how great the service was.

The communication was amazing and I was able to achieve the desired look I wanted. In particular love the fact that the costs were communicated clearly and was written down before the service was performed.

Thank you to all the staff for their commitment and dedication to give me my dream hair
